—❧—INTRODUCTORY.—❧—

It is with pleasure I present to my readers the first edition of my Greensboro City Directory, in the full belief that, inasmuch as it is reliable and original, it will also prove acceptable. It contains the names of the people who, at this time "move and have their being" in the City of Greensboro.

It is therefore, neither a mortuary record nor an archæological archive. It is not a perfect Directory, because such a production has never been known since Adam claimed a monopoly of the census; but it is equal to all reasonable requirements, and is far superior to any work of the kind ever published for Greensboro, inasmuch as it contains all the new house numbers recently adopted by the Council.

A Directory is a work the most prone of all to errors, from the fact that information is received from all sources, and in many cases given in a manner calculated to mislead, but we believe *the present volume will be found entirely free of errors that will in any way detract from the value of the book.*

Considerable difficulty has been encountered in our effort to make a thorough and complete work yet we claim that there are but few errors. Many names are spelled in half a dozen different ways, and yet retain the same phonetic sound. This fact necessitates careful search, which we trust will be made in all cases of doubt.

To the citizens who have so kindly aided us, we extend our grateful thanks, and must say that the larger majority received us cordially, and gave the information asked for cheerfully.

Our book is completed, and to the public we confidently trust it, knowing that they will appreciate its merits and deal kindly with its faults.

Very Respectfully,

EDWARD F. TURNER,

PUBLISHER.

IRE RAILROAD.

J. R. WATSON,

C. A. NIM

THE WEST SHORE RAILROAD

Is one of the most popular routes for business and pleasure travel leading to and from New York city, as well as being the most substantially built and elegantly equipped double track line through central New York State. This superbly built railroad has been justly named the "Picturesque Route," traversing as it does the west shore of the historic and world-famed Hudson River, skirting the foot-hills of the Catskill Mountains, famous in Washington Irving's "Rip Van Winkle," and passing through the beautiful Mohawk Valley. By this route three express trains are run daily, in each direction, between New York, Albany, Utica, Syracuse, Rochester, Buffalo, Niagara Falls, Toronto, Detroit, Chicago, St. Louis, and the West. Palace sleeping-cars are attached to these trains, and run through without change to the points named. Sleeping-cars, New York to Toronto without change, are run exclusively by the West Shore. The West Shore, in connection with the Fitchburg Railroad, is also the shortest line between Boston and Chicago. It is the only all-rail line to the Catskill Mountains, and the only line by which drawing-room cars are run through to the heart of the Catskills. During the season of Summer travel fast Catskill Mountain express trains are scheduled. Attached to these trains are drawing-room cars, which run through without change between Philadelphia, Jersey City, New York, and Catskill Mountains. Saratoga limited express trains are also run by the West Shore during the summer season, and have drawing room cars attached which run through without change between Washington, Baltimore, Philadelphia, Long Branch, Jersey City, New York, and Saratoga. Buffet smoking-cars, with revolving chairs, are a special feature of the splendid service on the West Shore. Drawing-room cars also run between Saratoga and Niagara Falls. The West Shore also runs special trains between New York and New Paltz during the summer season for the accommodation of travel to and from Lake Mohonk, Minnewaska, Shawangunk, and all points in the Walkill Valley. The connection in Jersey City station with the Pennsylvania Railroad will be appreciated by travelers to and from the South and the resorts of central New York State, as the long transfer through New York is thereby avoided. Passengers and baggage from Brooklyn are taken direct from the foot of Fulton Street by Annex boat to Jersey City stations. Tickets via West Shore can be purchased at ticket-offices of all connecting lines, and they are sold and baggage checked through to destination from all stations of the West Shore Railroad.

GREENSBORO, N. C.

Its Advantages as a Manufacturing and Commercial Centre.

IT IS SITUATED IN THE BEST FRUIT CLIMATE IN THE COUNTRY.

MIDDLE NORTH CAROLINA.

"Its salubrity, the variety and value of its productions, its mineral wealth, its manufacturing facilities, mark it out as one of the most desirable abodes for man, and a future centre of great wealth and population."

Greensboro has a population of about 6,000 and is the capital of Guilford County. It is at the junction of the Richmond and Danville, the North Carolina, the Cape Fear and Yadkin Valley, and the Notrhwestern N. C. Railroads. It is most favorably situated. The climate is genial and healthful. The elevation is 900 feet above the sea level.

Railroads extend in six diferent directions from Greensboro. Raleigh is 83 miles East; Richmond 189 miles by the R. & D. R. R. Washington, D. C., 319 miles via Lynchburg on the Va. Midland; Charlotte, Columbia and Charleston, on the south; Atlanta south west, and Asheville 197 miles west via Western North Carolina R. R. New York is reached in 15 hours. Several new railroads are projected, and numerous feeders are being constructed, connecting important points with the lines now centering at Greensboro.

THE SURROUNDING COUNTRY.

Guilford county embraces about 400,000 acres of fertile land, 30 per cent of which is tilled, all well watered, and well timbered. The counties adjacent are equally good; and as the future of this territory is closely connected with the growth and importance of Greensboro, the natural wealth of these counties is a pertinent inquiry. Immediately uorth of Greensboro, and again to the east, is the yellow tobacco belt, which grows the finest quality of tobacco in the world. Not far south, and within easy reach for commercial use, are the cotton fields which extend on to South Carolina. To the south-east are the pine forests which furnish turpentine and resin, and superior lumber for building and manufacturing purposes. Guilford county is best adapted to the cereals and to fruits. Wheat, oats, corn, the grasses and vegetables are satisfactorily grown. The choicest fruit and lucious grapes are

in abundance. Several extensive nurseries flourish in this county, which ship immense quantities of trees all over the United States. Canning fruit and vegetables has become an important industry, and there is a good opening for capital in this business. The climate of Guilford county is wonderfully adapted to all kinds of fruits, apples, pears, peaches, apricots, nectarines, and cherries. Garden fruit, such as figs, currants and raspberries, generously respond to the most indifferent care. Skill and energy would work wonders here in fruit culture. Grapes are cultivated with great success. The short distance and quick time by rail to Richmond, Baltimore, Philadelphia and New York enable shippers to put fresh fruit from this section into those markets, several weeks in advance of the fruits grown there.)

COAL AND IRON ORE.

Thirty miles south of Greensboro, on the Cape Fear & Yadkin Valley R. R., are the Deep River Coal Fields, which have not been fully explored or much developed. There is no doubt of immense deposits and superior quality of steam producing coal. North of Greensboro we find the Dan River Coal Fields, which have recently been prospected and the results are satisfactory. There are indications of an abundant supply of good bituminous coal. The construction of the C. F. & Y. V. R. R. in Virginia will bring the Pocahontas coal fields within a short distance and place the coals of that famous region in the Greensboro market at a very low figure.

One of the most remarkable ranges of iron ore in the State crosses Guilford county in a north-east and south-west direction, about ten miles north-west of Greensboro.

The ore is granular magnetite, and is everywhere titaniferous,—chromium and manganese are uniformly present. It is similar to the New Jersey ores, and the quantity is immense and inexhaustible. There is a second vein running parallel about three miles to the north. The first mentioned ore-bed is six feet across—solid ore; a green, chloritic slate ore. Prof. Lesley says the largest deposit of ochre he ever saw, is in Guilford county.

GOLD AND COPPER MINES.

North Carolina is the largest gold producing State east of the Rocky Mountains. In Guilford and adjacent counties there are 75 mines. Copper mines have been profitably worked in the same territory. The Fisher Hill Gold Mine, seven miles south of Greensboro, yields ore that mills \$30 per ton.

KAOLIN.

The largest bed of Kaolin in the State is a few miles south of Greensboro. There is here a fine opening for Potteries.

TIMBERS.

Greensboro is within easy reach of all kinds of forest trees used in the different arts, and for all commercial purposes. The spokes, hubs, handles and rims manufactured at Greensboro have given a reputation to the oak and hickory of this region for such purposes, equal if not surpassing, any in the world. The white hickory in Guilford and surrounding counties, for weight, strength, tenacity, and for susceptibility to fine polish, is pronounced by experts to be superior to any in the world.

South of Greensboro are immense forests of yellow pine—hundreds of thousands of acres—which are not yet within rail road reach. These lands can be bought at reasonable prices; and without great cost a railroad might be extended through this pine region.

There is no better opening anywhere for manufacturers of carriages and wagons than at Greensboro, N. C. This place must become a great manufacturing centre. Cotton, tobacco, iron, coal, and all kinds of timber lie within easy reach, waiting for the grasp of capital and well directed industry.

COTTON FACTORIES.

Upwards of thirty large cotton factories are now in operation within a radius of forty miles of Greensboro. The importance of this town as a railroad centre, furnishing such excellent facilities for transportation, and its proximity to such an abundance of raw material mark it as a locality destined to reach great prominence in the near future.

THE CITY.

Greensboro is a desirable place for residence. The population is orderly, thrifty, energetic, genial and hospitable. It has great natural and artificial attractions. Beautiful residences, a profusion of shrubbery and flowers, and well shaded streets and avenues greet the eye. Greensboro is appropriately called "The City of Flowers."

There are thirteen churches, two graded schools and one large Female College; also a Seminary for the education of colored teachers. The people are noted for the interest which they manifest in education, and in schools. A graded school building has recently been erected at a cost of \$12,000.

The town is lighted with electricity and gas, and water works have been constructed. An appropriation of \$100,000 has been made to provide a system of sewerage and to pave the streets and sidewalks. The United States has erected a beautiful Post Office and Court building at a cost of \$70,000, and the county court house is one of the finest public edifices in North Carolina. There are here two of the largest and best kept hotels in the State.

There is one National Bank with a capital stock of \$100,000, with a surplus of \$33,000 and undivided profits of \$10,000. It carries deposits which average about \$300,000. There is also a Five Cents Savings Bank recently organized under the laws of the State. There are here also the Bank of Guilford and the Piedmont Bank. There are upwards of one hundred business houses, in addition to foundries, machine shops, large tobacco factories, knitting mills, cotton mills, lumber mills, sash and blinds, spoke and handle factories, etc., all of which do an annual business of about \$12,000,000. There is no better opening for wholesale and jobbing houses.

INCREASE OF POPULATION AND BUSINESS.

During the past five years Greensboro has doubled in population and its business has been increased five-fold. The advance is gradual and substantial. No effort has been made to stimulate growth beyond the usual exertions in legitimate business. The territory tributary to Greensboro is such as to guarantee extensive trade and traffic, and the attractions of this city to people seeking opportunities to enter into any kind of business, particularly manufacturing, are very great. The large deposits of coal and iron, with an abundance of lime in Stokes county, 40 miles away; and the forests of superb timber of all kinds within easy reach, ought to be a great inducement to capitalists seeking such investments. Here is a good location for furniture factories, foundries, machine shops, wagon factories, manufactories of agricultural implements, cotton factories, tobacco factories, fruit and vegetable canneries.

In the country surrounding Greensboro, can be bought at reasonable figures, farms which are susceptible of good cultivation. All kinds of grain and fruits and grasses will repay the industrious farmer, and a good market is at hand for any surplus. The country hereabouts is well adapted to stock raising, and the dairy is always profitable. Great quantities of poultry and eggs are shipped from this point.

There is no part of the State or of the South that affords greater opportunities to secure comfortable homes and good returns for farm labor, than that around Greensboro; and no town which promises a better future for capital and skilled labor.

HISTORICAL INTEREST.

The most notable battle fought in the Southern States during the revolutionary war, took place at Guilford Court House, March 15, 1781, four miles from where Greensboro now stands. Gen. Greene decided the fate of American Independence on this ground.

Greensboro was named in honor of Gen. Greene, and her citizens are doing a patriotic work in reviving national interest in the battle which covered that great General with imperishable glory.

GOVERNMENT OF NORTH CAROLINA.

Daniel G. Fowle, Governor, salary \$3,000.

Thomas M. Holt, Lieut-Governor and President of the Senate, salary \$8 per day during session.

W. L. Saunders, Secretary of State, salary \$2,000 and fees.

D. W. CORL,

PRACTICAL

Horse Shoer

AND

BLACKSMITH,

215 East Sycamore St.,

GREENSBORO, N. C.

Horses Shod on correct principles. Thousands of horses are permanently injured by bad shoeing. The above has studied the anatomy of the horse's foot, and has had many years' experience, and he believes that he can satisfy any reasonable horse owner with his work. He solicits a share of the public's patronage.

GREENSBORO FEMALE COLLEGE.

GREENSBORO FEMALE COLLEGE,

REV. T. M. JONES, A. M., D. D., President.

This Institution was founded by the North Carolina Conference, chartered in 1838, opened for the reception of students in 1846, and continued in successful operation until its destruction by fire in 1863. It was re-opened in 1873. The purpose of its founders was to furnish to young ladies the necessary advantages and facilities for the acquisition of a thorough and accomplished education. For many years, it has enjoyed a reputation unsurpassed by any Female College in the South, and standing as the mother of chartered Female Colleges in North Carolina, it still holds its place in the front rank among those Institutions which aim at the higher education of woman.

Nearly five hundred regular graduates and several thousand other young ladies, who received their chief training in the College, have gone out from its halls, exerting an elevating and refining influence upon society, and filling their homes with the light of a beautiful, cultivated, Christian womanhood.

The Institution is still endeavoring to accomplish the object of its original establishment as a Methodist College, and though denominational in character, it is in no offensive sense sectarian. Terms now offered to daughters of ministers in the regular pastoral work are more liberal than heretofore. The advantages offered in this institution are not surpassed by those of any Female School in the South.

THE ANNUAL COMMENCEMENT

Is on the Last Thursday in May.

THE COLLEGIATE YEAR

Is Divided into Two Sessions of Twenty Weeks Each.

THE FALL SESSION

Begins on the Fourth Wednesday in August, and Continues Twenty Weeks.

NO VACATION IN WINTER.

THE SPRING SESSION

Begins on the Second Tuesday in January, and Ends on the Last Thursday in May.

The People's Five Cents Savings Bank

OF GREENSBORO,

115 SOUTH ELM STREET,

Does purely a Savings Bank business, and pays all the profits to depositors. Has paid interest at the rate of five per cent. per annum ever since its organization. Its Trustees are the leading business men of this city. Its principal officers are: President—J. M. Winstead. Vice-Presidents—S. S. Brown, J. A. Odell and J. H. Harris. Treasurer—Sam'l L. Trogdon. Clerk (or Secretary)—H. H. Cartland. Attorney—R. M. Douglas. Investment Committee—J. M. Winstead, J. A. Odell, D. W. C. Benbow and J. W. Scott. State Commissioner—Judge J. A. Gilmer.

Examined annually by both State Commissioner and State Bank Examiner. The latter officer; Hon. Clemet Dowd says: "The Bank is well officered, well managed and is in a healthy, sound condition. Further information given on application."

THE WAKEFIELD HARDWARE CO. Can supply you with the Richmond Stove Company's Stoves and Ranges. 229 South Elm Street.

THE GREAT FOUR TRACK NEW YORK CENTRAL & HUDSON RIVER R. R.

Is the only Line in America with

FOUR COMPLETE TRACKS

For a Distance of over Three Hundred Miles, two of which are used exclusively for Passenger Trains, thereby ensuring

SAFETY, FAST TIME AND PUNCTUAL SERVICE.

THE NEW VESTIBULED LIMITED now in service between New York and Chicago, via the N. Y. Central and Lake Shore Route, is composed of Vestibuled Cars so perfect in all appointments, so replete with comforts, luxuries and novelties, that it seems almost impossible to do more in the way of car construction than has been accomplished. A library, bath room, barbershop, steam heat, and new system of ventilation are the novel features.

THE Niagara Falls ROUTE

Is over the N. Y. Central in connection with the Michigan Central Railroad. Fast Express Trains by the New York Central cross the celebrated Cantilever Bridge at Niagara Falls, stops ten minutes at the verge of the great Cataract and speed on to Detroit and Chicago for all points West and Northwest.

Highlands of the Hudson.

FAST EXPRESS TRAINS

With magnificently appointed Drawing Room and Sleeping Cars run through from NEW YORK to BUFFALO, NIAGARA FALLS, CLEVELAND, DETROIT, CHICAGO, CINCINNATI and ST. LOUIS, with direct connections for all points North, West, Northwest and Southwest.

All trains arrive at and depart from GRAND CENTRAL STATION, Fourth Ave. and Forty-second St., NEW YORK. Largest and finest Passenger station in America and the only one in the city of New York. For time tables see New York daily papers.

JOHN M. TOUCEY,

Gen'l Superintendent,

GEORGE H. DANIELS,

Gen'l Agent,
